	<p>If you are dependent, your Youth Allowance rate is calculated using both:</p> <ul style="list-style-type: none"> the Parental Means test includes the parental income test and the maintenance income test. It is applied when first claiming a payment, and reassessed each year and the Personal Income Test – see below <p>The Parental Income Test assesses combined taxable income, child support payments, fringe benefit tax entitlements, reportable super contributions, net investment losses and tax-free pensions and benefits.</p> <p>To receive the full dependent Youth Allowance payment rate, your parents’ income needs to be below the threshold (currently \$54,677 in 2020).</p>	<p>If you are independent, your rate is calculated using:</p> <ul style="list-style-type: none"> the Personal Income Test and may be subject to the assets test. <p>Personal Income Test – see below</p> <p>If you are working, you need to report your income. If you earn above \$437 in a fortnight, your payment may be reduced.</p> <p>Personal Assets test</p> <p>You need to declare the value of your assets when you submit your claim, including any savings account balances. This may affect your payment.</p> <p>Partner income and assets</p> <p>If you have a partner, you may also be subject to a partner income and assets test.</p>

For income above the threshold, the amount may be reduced depending on whether they are required to live away from home to undertake study and how many children are in the family. This is called the **Family Pool**.

The **Maintenance Income Test** considers how much child support or voluntary maintenance your parents or guardians get for you.

The **Personal Income Test**

If you are dependent or independent the Personal Income Test may also be used to work out your payment rate. If you are working, you need to report your income. If you earn above \$437 in a fortnight, your payment may be reduced.

The **Income Bank** can help you keep more of your payment. You can get credits if your income is less than \$437 in a fortnight and use them when it's more than \$437 in a fortnight.
