

**Disconnected Country Kids**  
**Access to adequate, affordable internet services**

**Communications issues:**

Rural and Remote Communications – ICPA has strong and clear views on communication requirements for the non-urban population, which have come about due to the inequalities experienced over the last decade or so in comparison to available metropolitan services. We are aware that delivering services similar to metropolitan areas, to the rural and remote population, is far more expensive and time consuming to deploy. Therefore, it is essential that the **nbn** Long Term Satellite Service (now Sky Muster Service) capacity is sufficient for both current and future demand. Existing usage is limited by the inadequacy of the current systems and policies.
